Notes:

1. For other reference to the main bearing see 'Crankshaft' section.
2. Fuel lift pump push rod bushes were first fitted to crankcase doors 750-13740, 750-13750 and 750-13760 from:

4200326LPW2	4200617LPW3	4200600LPW4
4200123LPWS2	4200253LPWS3	4200435LPWS4
3. The latest crankcase door has an extra hole to reduce oil leakage; for spares of old doors the following part numbers are used:

LPW4 -	750-13760 use 750-43700
LPWT4 -	750-41491 use 750-43710
	750-43510 use 750-43720

Crankcase doors are not interchangeable.

If new crankcase door screws are being fitted to old crankcases it is important to fit the old washer under the screw head to avoid the possibility of the screw bottoming.

ACCESSORIES

Introduction

This section lists accessories for LPW, LPWT and LPWS Marine Builds.

Tables A to C give the accessory kit codes with brief details of the kit and the page number. Some industrial engine accessories are also common to marine engines and therefore may have been fitted. A list of these kit codes is given in 'Compatible Industrial Accessory Kits - Table D'.

Those kit codes in the 'Accessory Kit Details' tables that are shown with underlined, italic type are no longer available as a kit but have been included for reference.

Details of some of these kits do not appear in the listings.
